Two postdoctoral positions in Probability and Mathematical Physics

Job description

The Section of Mathematics of the University of Geneva offers two two-year postdoctoral positions in Probability and Mathematical Physics. The positions can possibly be extended by one year. All candidates with a background in Probability or Mathematical Physics, and interested in working on the mathematical and physical aspects of Probability Theory, are encouraged to apply. The successful applicants will work in the groups of Hugo Duminil-Copin and Antti Knowles. The starting salary will be approximately 81'347 CHF per year. The positions come with a light teaching duty.

Requirements
Candidates must hold a PhD in Mathematics. The selection will be based on the excellence of previous scientific achievements and the quality of the scientific project.

Start date

The start date will be September 1st 2020.

Contact

The application should contain the following documents and has to be sent to Nathalie.buret@unige.ch before January 20, 2020:

- Curriculum Vitae, including a list of publications
- A short research statement
- Two recommendation letters
